✓ 1 / 1
point

1.
True or false: You can create Compute Engine virtual machines from the command line.

○ True
▲

Correct
Correct! It's advantageous to create virtual machines from a command line when you want their configurations to be scripted and repeatable. The gcloud command, provided by Google Cloud as part of the GCP SDK, can create virtual machines with parameters you specify.

○ False

✓ 1 / 1
point

2.
What is the main reason customers choose Preemptible VMs?

○ To improve performance.

○ To reduce cost.
▲

Correct
That's correct! The per-hour price of preemptible VMs incorporates a substantial discount.
